

Lesson Plan

School Counselor:	Lexie Harrison
Lesson Plan Title:	Making Friends: Friendship Recipe
	☐ Single Classroom Lesson ☐ Unit of Classroom Lessons: Lesson ____ of ____ ☐ Small-Group Session Lessons: Lesson ____ of ____
Target Audience:	2 nd graders
Evidence Base:	
☐ Best Practice (<i>commonly used and believed to be of high quality</i>) ☐ Action Research (<i>individual investigates own practice to improve content/delivery</i>) ☐ Research-Informed (<i>a review of research provides foundation for content/delivery</i>) ☐ Evidence-Based (<i>highest level of evidence, results published in peer-reviewed journal</i>)	

ASCA Student Standards Targeted:		Student Learning Objectives:
Identify 1–2 student standards relevant for this targeted group and goal: (<i>Best practice = select one</i>)		For each of the selected student standards, write or select 1–2 learning objectives
M&B#	Mindsets & Behaviors Statement	Student Learning Objectives
B-SS 2.	Positive, respectful and supportive relationships with students who are similar to and different from them	Student(s) will: Be able to identify at least 2 characteristics of a good friend.
B-SS 4.	Empathy	Be able to demonstrate 1 way to appropriately respond to others who ask to join their activities.

Materials:
Coloring utensils, Worksheets, PowerPoint Presentation

Describe how you will:	
Introduce Lesson Topic/Focus:	Making Friends and what characteristics make up a good friend. Begin with an activity where students stand up and walk around the room until they are told to stop and find a partner. They will give their partner a high five, then share their answer to a prompt given (x2).
Communicate the Lesson Objective:	Today's lesson will focus on how we make friends, as well as how to include others and how to ask if you can join in their activities.

Teach Content:	Slides: Learn the recipe for making a friend Step 1: Gather ingredients – go over list of “ingredients” that make a good friend. Ask the class for other examples not on the list that are important to them in a friend/what they believe makes a good friend match. Activity – who is a good friend match for Kallie? Read the descriptions for each child and have the class determine who is the best friend match for Kallie. Discussion questions: Would Kallie ever play with someone that likes different things than her? If they are not a good friend match, can they still be friendly with each other? Step 2: Mix it Up – discuss ways that you can ask to join others. Ask the class for other ways that they think you can ask to join in with others in activities. Also discuss ways that you can respond when someone asks to join your activity. Activity - students stand up and walk around the room until they are told to stop and get into groups of three. Students will then practice asking one of the group members to join them in an activity. They will also practice their responses for when someone asks to join their activity. Step 3: Enjoy the friendship – describe ways that you can enjoy spending time with friends. Ask the class for other examples of how they enjoy spending time with friends.
Practice Content:	Worksheet – “In this picture I am...” Have them draw a picture of themselves either asking to join others at recess or inviting someone to join them at recess.
Summarize/Close:	Closing discussion questions: What is one thing you look for in a friend? What differences are okay (and even good) in friendships? When and how can we include others?

Data Collection Plan – For multiple lessons in a unit, complete this section only once for the unit.

Participation Data Plan:

Anticipated number of students:	25 students (per class)
Planned length of lesson(s):	30 minutes

ASCA Student Standards Data Plan:

For each lesson/unit/small group, school counselors will administer pre-/post-assessment aligned with the selected ASCA Student Standards and student learning objectives.

Pre-/Post-Assessment items are:

1. I know what makes someone a good friend.
2. I know how to ask someone if I can join their game/activity.

3. I know how to include others when I am playing a game.
4. I know what to say when someone asks to play with me.

Outcome Data Plan: (choose one and describe specific data point to compare)

Examples:

Achievement: School counselor will compare reading levels of students before and after delivery of lesson.

Attendance: School counselor will compare number of absences last year to this year.

Discipline: School counselor will compare total number of disciplinary reports for peer-on-peer conflict first quarter with second quarter

- Discipline: Counselor will compare the total number of disciplinary reports for peer conflict at recess during 12 weeks prior to lesson and 12 weeks following lesson to evaluate effectiveness.

Follow-Up Plans

Explain your plan for students who missed the lesson.

Students who missed the lesson will participate in a brief individual lesson of the topic and materials covered.

Explain your plan for students who did not demonstrate mastery on the pre-/post-assessment of student standards (M&B)/student learning objectives.

Students who did not demonstrate mastery will participate in small-group sessions to practice skills taught in the lesson.
